Contracts Clear

- 1 piece lens
- medium impact resistance
- stylish design

Code: 331030

 Code: 331030

 Code: 331032

 Code: 331033

 **CLEAR** – Allowing a maximum visible light transmission, this excellent safety lens is used for indoor applications where impact protection is required.

 **SMOKE** – Worn on bright, sunny days, these lenses provide maximum glare reduction and are ideal for applications where eye strain is a major factor. They allow approximately 16% visible light transmission, show objects true to natural color and flatten light to maintain normal depth perception.

 **AMBER** – Light gathering properties make this lens ideal for low light environment in which contrast is low; highlights and defines by blocking out much of the blue light and allows about 84% visible light transmission.

 **BLUE** – Serves the same purpose as smoke lens, yet allows more visible light through the lens for indoor / outdoor use. Reduces glare from artificial light such as halogen and fluorescent.

 **IRUV SHADE 5** – Worn for applications and in environments where others are performing welding tasks such as torch brazing, torch soldering, gas welding and oxygen cutting.

 **MIRROR** – These dark tinted lenses with a reflective coating are great for outdoor applications where very bright sunlight and glare cause eye strain and fatigue.

Safety Glasses

Rap Clear

- wrap around design
- silicon nose piece
- flexi arms
- medium impact resistance
- anti-scratch and anti-fog lens

Code: 321080

Code: 321080

Lens Cleaners and Eye Wash Products

Lens Cleaning Station

- approximately 600 tissues per cleaning station
- anti-fog / anti-static coating
- use on face shields safety glasses and respirators
- silicon free

Code: 331002

Lens Cleaning Dispenser

- 100 individual wrapped towelettes
- anti-fog / anti-static coating
- silicon free
- use on face shields, safety glasses and respirators

Code: 331003

Emergency relief for when accidents occur involving dust, particles and other matter entering the eye(s). Eye Wash stations deliver sterile, isotonic, double-buffered relief one second after activation.

Emergency Eye Wash Wall Stations

- comes complete with steel wall mounting bracket
- bacteriostatic additive
- test log card
- drainage hose
- preservative concentrate available

Code: 3301106 – 23Ltr

Code: 3301116 – 60Ltr

First Aid Eye Wash Kit – Including Sterile Eye Cup

- contains two natural phosphate buffers and no eye irritants
- provides the optimum environment for the eye to heal itself

Codes: 3301014 – 115ml eyewash

3301042 – 115ml with eye wash cup

Release November 2005

Preservative Eye Wash Concentrate

- includes bacteriostatic additive

Code: 3301200 – 230ml
